Chicago, IL | (773)-997-4801 | areejimran86@gmail.com | [LinkedIn](#) | [GitHub](#) | Website

EDUCATION

Loyola University Chicago | Chicago, IL

Graduation: May 2027

Masters in Cybersecurity

Bachelor of Science, Software Engineering (2025)

Dean's Awards GPA: 3.6/4.00

Minorities in Tech (President), Society Women Engineers(Midwest Vitality Chair), WeCode Harvard (Fellow)

COMPTIA

Security+ 701 Certification

• Relevant Topics: Endpoint Protection, Public Key Infrastructure, Security Frameworks, Compliance Regulations

TECHNICAL SKILLS

Programming: C/C++ • Python • Java • Amazon Mechanical Turk • SQL • MongoDB • Bash • HTML • JavaScript • Bootstrap • ASP .Net • ML • VM Workstations • MSFVenom(ShellCodes) • Social Engineer Toolkit

Applications: Microsoft Azure, Adobe Creative Cloud • Microsoft Office Suite • Excel • After Effects • Visual Studio • IntelliJ • Git • Figma

Terminals: macOS terminal, Windows PowerShell, Kali Linux

PROFESSIONAL EXPERIENCE

Cyber BullyBlocker | Graduate Research Assistant

August 2025 – Present

- Building machine learning models to detect and prevent cyberbullying to create safer online spaces by identifying harmful behaviors and content on social media platforms.
- Fine-tune CLIP (& other ML models) on a binary-labeled dataset (bullying vs. non-bullying) to improve classification accuracy.
- Integrate image and text analysis for a more comprehensive detection framework.

Laith Inc | Product Intern

May 2025 – Present

- Developed and maintained front-end components using HTML, CSS, and JavaScript, reducing site bugs by 30% through clean, efficient code for beta testing usage.
- Conducted continuous performance testing and optimization to improve site load times and scalability.
- Integrated brand elements such as logo, color schemes, and messaging to ensure consistency across all digital touchpoints.

Celsius Software LLC | Software Engineer Intern

May 2024 – August 2024

- Developed and deployed 3 core web pages (Contact Us, Privacy Policy, and Legal) for the SetRents platform, enhancing legal compliance and user engagement.
- Collaborated with a team of 5+ developers to ensure 100% accuracy in capturing and storing property data across the platform.
- Utilized Azure DevOps to generate and manage over 20+ development tasks and bug tickets, prioritizing them based on product needs and project timelines.

Girls Who Code | Intern

Leadership Academy & Pluralsight

May 2023 – December 2024

- Developed an AI website with HTML, PostgreSQL, and OpenAI that is voice integrated to assist students with technical, behavioral and situational interviews.
- Embodied and practiced leadership through participation in GWC's four-month leadership development and career readiness program with senior leaders and engineers.
- Participated in weekly meetings with peers and industry professionals for leadership development and project management.
